

Design a Nature Poster

The Parks Trust
JUNIOR PARK RANGERS

Get creative and share what you have learnt about nature!

As Junior Park Rangers, you have so much knowledge about nature and the environment - certainly more than average people your age!

For this activity, can you use everything you have learnt to design a poster encouraging your schoolfriends to help protect local wildlife?

You could draw or paint your design, make a collage, create it on the computer - whatever you like to do best!

Think about these things:

Why is it important to look after nature?

What can your friends do to help local wildlife?

Is it just Milton Keynes that will be affected or will your friends' actions help the world?

Do you know an interesting fact you can add to your poster?

Once you have finished your posters you can share them on your noticeboard or display them somewhere lots of people will see them!
